Auto **S**izing

No More Manual Cropping!

Auto Head Sizing uses state of the art face detection to set any crop to your images, all with just a few clicks. Set your preferred crop to a sample image and Auto Head Sizing will automatically apply it to all images, making them consistent throughout your shoot. Also create hard cropped images and cropped data files that can be imported into multiple production products.

ABOUT PHOTOLYNX

PhotoLynx has developed an integrated line of software products to aid school photography businesses throughout the production process. With our variety of products, PhotoLynx assists not only the photographer, but the studio, school, and professional color lab as well. Our focus is to continuously streamline the production of digital and traditional products or services by linking PhotoLynx software to all standard industry hardware and software.
